Tata AIG Life

InvestAssure EXTRA

IN THIS POLICY, THE INVESTMENT RISK IN INVESTMENT
PORTFOLIO IS BORNE BY THE POLICYHOLDER

**A unit-linked insurance plan
with a Payor Benefit.**

LIFE INSPIRES US TO THINK AHEAD

An inspiration that translates into a host of innovative product solutions for you. Tata AIG Life introduces Tata AIG Life InvestAssure Extra, a unique investment-linked insurance plan for flexibility and protection. Given a choice, most people would like to increase the earning potential of their insurance premiums by deciding their own investment and risk limits. Tata AIG Life InvestAssure Extra, a unique, flexible insurance plan combines the security of a life insurance policy with the opportunity to exploit the upside of market returns (however, with increased investment volatility) by providing an option to invest in different kinds of securities through multiple fund options.

What's more, you can direct the investments by creating your own investment fund portfolio from a range of options to suit your needs and preferences.

Enjoy multiple benefits

TATA AIG LIFE INVESTASSURE EXTRA

- Provides security to your family in case of your unfortunate demise.
- Gives the flexibility to choose your funds based on your risk profile.
- Gives Return of Premium guarantee on maturity, in case you opt for Capital Guaranteed Fund.
- Provides Payor Benefit for juvenile ages.
- Enables you to enjoy market-linked returns with a potential for higher growth.

Flexibility of choosing the Term of Cover

The Policy provides you the option of choosing a life cover for a term of 15 years or 20 years. In case of an emergency, you can also surrender your Policy any time after the 6th policy year, and receive full value without any penalty charges.

Flexibility of choosing the Amount of Death Cover

The Sum Assured is a multiple of the Annualised Premium payable. The multiple varies according to the Policy term. The multiple is 5 or 7.5, in case of a 15-year term, and 5 or 10 for a 20-year term. When the Fund Value exceeds the Sum Assured, the death benefit payable will be the Fund Value.

Flexibility of changing Top-up Sum Assured

You have an option to choose an additional Sum Assured (also known as Top-up Sum Assured) equal to the Premium Multiple times the Top-up Premium, subject to underwriting. If, at any point of time, the total amount of Top-up Premium is more than 25% of the Total Regular Premium paid till date, then such excess amount of Top-up Premium will be used to provide additional Sum Assured, subject to underwriting rules prevailing at that time. The Premium Multiple can be 1.25 or 5 times.

You have an option to increase or decrease the Top-up Sum Assured by way of changing the Top-up Premium Multiple, subject to underwriting and such reduction is subject to the minimum Top-Up Sum Assured allowed under this product.

Flexibility of choosing your Investment Fund

You can choose from a variety of funds. Premium, net of premium allocation charges is invested in one or more investment funds, as per your required asset allocation. You have the option of choosing any or all of the 5 Funds or such funds as are available at the time of allocation, based on your preferred asset allocation. These funds are all managed by Tata AIG Life Insurance Company Limited.

Funds

You can create your own asset allocation by investing in any combination of the following funds:

Growth Maximiser Fund: The Growth Maximiser Fund will invest a significant percentage (50% to 80%) of the Fund in equity and equity-linked instruments and the balance (about 20% to 50%) in Government bonds and high-quality fixed-income instruments. The fixed-income investments include investments in Money-Market Instruments up to 100% of the Fund.

Growth Enabler Fund: The Growth Enabler Fund will invest a considerable percentage of the fund in equity and equity-linked instruments (30% to 50%) and the balance in Government bonds and high-quality fixed-income instruments (50% to 70%). The fixed-income investments include investments in Money-Market Instruments up to 100% of the Fund.

The Short Term Fixed-Income Fund will invest a significant amount in debentures (investment-grade, privately-placed, etc.), government securities and other fixed-income instruments (altogether, up to 100%) and Money-Market Instruments and securities held under reverse repos, including debentures with maturity less than one year - up to 100% of the Fund.

The Capital Guarantee Fund will invest a significant amount in fixed-income instruments including corporate and PSU bonds, government securities, securitised assets, etc. (altogether, up to 100%) and up to 15% in the equity and equity-linked instruments and the balance in Money-Market Instruments and securities held under reverse repos, including debentures with maturity less than one year - up to 100% of the Fund.

Select Equity Fund: The fund will invest a significant amount in equity and equity-linked instruments specifically excluding companies predominantly dealing in Gambling, Lotteries/Contests, Animal Produce, Liquor, Tobacco, Entertainment (Films, TV, etc.) Hotels, Banks and Financial Institutions, altogether, up to 100% and cash/Money-Market Instruments and securities up to 100% of the Fund. The Fund will be benchmarked and guided by relevant indices currently or in the future available in the market.

The funds mentioned above have different risk profiles, based on different types of investments that are offered under these funds. The returns are expected to increase with increase in risk profile*. For eg., Growth Maximiser Fund has the medium to high-risk profile, Growth Enabler Fund has low to medium-risk profile.

The Policyholder can either select the percentage of Premiums in whole numbers that he/she wants to invest in the funds or combination of them, totalling to 100%. Each of these funds will, at all times, be substantially invested in their respective asset categories.

**Returns are subject to market conditions.*

The Unit price or the Net Asset Value (NAV) per unit of the investments will be determined on a daily basis and will be used for debiting or crediting units.

Flexibility of managing your Investments

We understand that as you go through life, your needs and risk tolerance may change over time. Tata AIG Life InvestAssure Extra gives you two options to manage your investments, based on your needs and risk tolerance levels.

Switching: You can switch your entire or part of investment from one fund to another. This will be without any charges for the first 12 switches in a policy year, after which a fund-switching charge applies, as described under 'Premium and Policy Charges'.

In case you have invested in the Capital Guarantee Fund, then any amount that is switched out from Capital Guarantee Fund will reduce the guaranteed benefit applicable to the Capital Guarantee Fund, proportionately. You cannot switch any amount into the Capital Guarantee Fund.

Redirection: Redirection facility helps you to allocate future premiums to a different fund or set of funds. There is no premium redirection charge. Premium allocation towards the Capital Guarantee Fund cannot be altered.

Flexibility of Topping-up your Premium

You have the flexibility to increase the amount of premium paid by you, any time during the term of the Policy.

If you receive an addition in income, be it a bonus or a lottery or when your income grows across years and you are in a position to make additional investments, you could invest the monies in your Tata AIG Life InvestAssure Extra Policy by way of Top-up Premiums. You can Top-up your Policy up to four times in a policy year. The minimum Top-up amount currently is Rs. 5,000. Moreover, Tata AIG Life InvestAssure Extra offers you the flexibility of deciding how you want to allocate the Top-Ups.

Note: A large Top-up Premium may have taxation implications for the Policy proceeds, in which case, you should take the help of your Tax Advisor.*

Top-up premiums can be made with or without increase in the Sum Assured. In case the total Top-up amounts are less than 25% of the total regular premiums paid till date the Top-up can be made without increasing the Sum Assured. However, if the total Top-up amount is more than 25% of the total regular premiums paid till date, then the Top-up will have a corresponding Top-up Sum Assured by 1.25 or 5 times such excess amount. The example given below will make it clear.

You have an option to increase or decrease the Top-up Sum Assured by way of changing the Top-up Premium Multiple, subject to underwriting and such reduction is subject to the minimum Top-up Sum Assured allowed under this product.

Example: Regular premium paid till date Rs. 48,000

No Top-up amount paid till date.

Maximum Top-up that can be made without increasing Sum Assured: 25% of Rs. 48,000 i.e., Rs. 12,000.

If the Policyholder wants to make a Top-up of Rs. 20,000, then the excess over Rs. 12,000 is Rs. 8,000.

Sum Assured option will be:

1.25 times of Rs. 8,000 = Rs. 10,000 OR 5 times Rs. 8,000 = Rs. 40,000

**Top-up Premiums are subject to charges, as described under 'Premium and Policy Charges'.*

Flexibility of Partial Withdrawal

If there is an emergency and you need funds, you can avail of the Partial withdrawal facility if your attained age is 18 years or above. Partial withdrawal is allowed from the Regular Premium Account any time after five years from the date of issuance of your Policy. Partial withdrawal from the Top-up Account is allowed after three years. The three-year period is calculated from the date of approval/deposit of the Top-up Premium, whichever is later. Such rule for withdrawal is not applicable if the Top-up Premium is credited to the Policy in the last three Policy years immediately prior to the maturity date. Partial withdrawals can be made first from Top-up Premium Account and thereafter, from the Regular Premium Account. This withdrawal is subject to withdrawal amount being more than Rs. 10,000. The remaining Total Fund Value after such withdrawal is such that the Surrender Value does not fall below an amount equal to One Annual Regular Premium. There are no partial withdrawal charges. A maximum of up to four (4) withdrawals are allowed for each policy year.

In case partial withdrawals are made from the Capital Guarantee Fund, the maturity guarantee for the Fund will be proportionately reduced. The proportion used for reduction will be the ratio of the amount withdrawn from the Capital Guarantee Fund to the Capital Guarantee Fund Value before such withdrawal.

Flexibility of Premium Holiday

If, after payment of at least three complete years, Regular Premiums, you are not able to pay your Regular Premium, your policy will not lapse immediately but will be put on Premium Holiday. Premium Holiday will be for a maximum of two years, during which you can continue to enjoy the life coverage. You may recommence paying Regular Premiums within two years from the date of the first unpaid Regular Premium. If you are not in a position to recommence paying Regular Premiums within two years of Premium Holiday, you may write to the Company to continue the Policy on Premium Holiday, subject to the Company's approval. Upon such request, your policy will be continued, so long as the Surrender Value does not fall below an amount equivalent to one year's Regular Premium. The Company does not receive any request for such continuation, the Surrender Value will be returned.

There are no Premium Holiday charges for the period that the Policy is maintained on Premium Holiday as above. If the Company does not receive any request for such continuation, the Surrender Value will be returned.

Flexibility of Policy Reinstatement

If, for any reason, your Tata AIG Life InvestAssure Extra Policy lapses and you wish to reinstate it, you have the flexibility of doing so within two years from the date of lapse, subject to fulfillment of reinstatement requirements, underwriting guidelines and the Company's approval. If, after three Annual Regular Premiums have been paid and subsequent premiums are not paid, then the Premium Holiday provisions as described above, will apply. If you are unable to reinstate the Policy within the reinstatement period of two years, the Policy will be surrendered and the Surrender Value, if any, will be paid

after deducting the applicable surrender charges on the expiry of the reinstatement period. When the Policy is in a lapsed condition, only total Fund Value will be payable in the unfortunate event of death.

For reinstatement requirements, please refer to the Policy Document.

Flexibility of Premium Mode

You have the flexibility of choosing your premium mode. As per your convenience, you can choose to pay your premiums* either Annually, Semi-annually, Quarterly or even Monthly.

In case of proposals or Top-up Premiums where underwriting or any other approval of the Company is required (including Electronic Clearing System - auto-pay cases), units will be allocated on the day, the underwriting and the other approvals are completed. However, in case of outstation cheques/outstation demand drafts, units will be allocated on the date of realisation or the day when the underwriting/approvals are completed, whichever is later.

In case of renewal premiums received via cash or a local cheque or a demand draft payable at par or the request for switching in Fund Value(s), is/are received by the Company at or before 3:00 p.m. of a Business Day, at the place where these are receivable, the Unit Price of the date of receipt shall apply.

In case of renewal premiums (via cash or a local cheque or a demand draft payable at par) or the request for switching in Fund Value(s), is/are received by the Company after 3:00 p.m. of a business day, at the place where these are receivable, Unit Price of the next valuation date following the receipt date shall apply.

If the renewal premiums are received by the Company by way of an outstation cheque/outstation demand draft, Unit Price of the date on which these instruments are realised will be applicable, provided realisation is at or before 3:00 p.m.

In case of renewal premiums, if you pay the premium in advance (including auto-pay cases), the units will be allocated on the due date of the premium.

*Monthly Premium = 0.0833 of Annual Regular Premium, Quarterly Premium = 0.25 of Annual Regular Premium, Semi-annual Premium = 0.50 of Annual Regular Premium.

Payor Benefit

For issue aged 0 to 17 years, the product offers the inbuilt Payor Benefit. In case you take this policy on your child's life, then in case of any unfortunate event on your life like disability or death, the Company will waive off the future premium payable on the Policy. These premiums will be waived till your child attains age of 21 years or you attain 60 years of age, whichever is earlier.

Additional charges as mentioned in 'Premium & Policy Charges' will be deducted for these benefits by way of cancellation of units.

For full conditions on the additional benefits, please contact us.

Flexibility to get Additional Cover against Accidental Death

Tata AIG Life InvestAssure Extra offers the option to attach Accidental Death Benefit Limited Underwriting rider for issue aged 18 to 45 years. An additional benefit amount, less than or equal to the Basic Sum Assured, will be paid in case of death due to an accident. Additional premium is payable for this benefit. *For more details on the benefits, premiums and exclusions under this rider, please contact our insurance advisor or visit our nearest branch office.*

The NAV per Unit or Unit Price will be calculated as:

Unit Price/Net Asset Value per Unit = (Market/Fair Value of the investments held by the Unit Fund + Expenses incurred in the purchase of the Assets + Value of Current Assets + Accrued income net of Fund Management Charges - Current Liabilities and Provisions)/Total No. of Units existing in the Unit Fund as on the valuation date.

However, when the Company is required to sell assets to redeem the units, the NAV per unit or Unit Price will be calculated as:

Unit Price/Net Asset Value per Unit = (Market/Fair Value of the investments held by the Unit Fund - Expenses incurred in the sale of the assets + Value of Current Assets + Accrued income net of fund management charges - Current Liabilities and Provisions)/Total No. of Units existing in the Unit Fund as on the valuation date.

The Net Asset Value (NAV) per Unit/Unit Price will be determined and published daily, and will also be available on www.tata-aig-life.com, the official website of Tata AIG Life. All you have to do is multiply the number of Units you have with the published Unit Price to arrive at the value of your investments.

Fund Management

The funds under Tata AIG Life InvestAssure Extra will be managed by Tata AIG Life Insurance Company Limited.

Other Features

Free Look Period

You can cancel the Policy by giving a written notice within the Free Look Period of 15 days from the receipt of the Policy and the Market Value of the invested premiums along with the charges paid will be refunded after nominal deductions such as Medical Fees, Stamp Duty, Mortality Charge on proportionate basis.

Tax Benefits

Premiums paid under this plan are eligible for tax benefits under Section 80C of the Income Tax Act, 1961*. Moreover, life insurance proceeds enjoy tax benefits as per Section 10(10D) of the said Act.

Note: A large Top-up Premium may have taxation implications for the Policy proceeds, so, in that event, you should ask your advisor for additional information.

**Tax laws are applicable as per the Income Tax Act, 1961 and are subject to amendments made therein, from time to time.*

Grace Period

If you are unable to pay your Regular Premium on time, the Company maintain life cover for 31 days from the due date providing sufficient time to you to pay the due Regular Premium. If your Regular Premium remains unpaid after 31 days, the Policy shall lapse unless the Premium Holiday provisions are applicable, as described earlier.

Discontinuance of Premiums within three years from Inception

Where a Regular Premium due before the third Policy Anniversary remains unpaid at the end of the Grace Period and the Company does not receive your written request to reinstate the Policy within two years from the date of lapse, the Policy will be terminated and the Total Fund Value returned, if any (and subject to deduction of the Surrender Charge as mentioned under Premium and Policy Charges), after two years of lapse, or on the third Policy Anniversary, whichever is later.

The Policy will be converted to an 'Investment Only' status after lapse. That means, all insurance cover and benefits under the Policy will cease after lapse and only the Funds will be maintained until it is surrendered according to the foregoing paragraph.

Policy Administration Charges will be deducted as due by cancellation of Units, while the Funds are maintained. If the Insured dies while the Policy is on 'Investment Only' status, we shall return the Total Fund Value, following the claim procedures for Death Benefit.

The policy can be revived at any time during the revival period of two years from the date of the first unpaid premium, subject to fulfilling Company's revival conditions and by paying all the outstanding Regular Premiums.

Eligibility

Term of Policy	Minimum Age at Issue	Maximum Age at Issue	Minimum Annual Premium
15 years	30 days	45 years	Rs. 12,000
20 years	30 days	45 years	Rs. 12,000

Maturity and Death Benefits

*Death benefit is higher of Sum Assured and total Fund Value in the illustration above. The Total Fund Value depends upon the performance of the Company and is not guaranteed.

Maturity and Death Benefit

Maturity Benefit

The Maturity Benefit you receive at the end of the Policy term is the balance of your Total Fund Value, which is sum of Regular Premium Fund Value and Top-up Fund Value, if any. Regular Premium Fund Value and Top-up Fund Value are valued at applicable Unit price.

In respect of premium received in Capital Guarantee Fund the maturity value will be the higher of:

- The Value of Capital Guarantee Fund
- The Total premium received towards Capital Guarantee fund, provided the premium remains within the Capital Guarantee Fund throughout the term of the Policy. In case of partial withdrawals or switching out from the Capital Guarantee Fund, guaranteed amount would be proportionately reduced. The proportion used for reduction will be the ratio of the amount withdrawn or switched out from the Capital Guarantee Fund to the Capital Guarantee Fund Value before such withdrawal or switching. This guarantee will be applicable only if all due premiums have been paid.

The guarantee will not apply on premium allocated towards other funds. Further, guarantee will also not apply on the Top-up premiums.

In the illustration given below, the yield (excluding mortality charges) is 3.43% at 6% and 7.30% at 10%, respectively.

In the illustration given below, the yield (including mortality charges) is 3.34% at 6% and 7.21% at 10%, respectively.

The table below illustrates Regular Premium Fund Value for a healthy male aged 35 years with chosen policy term of 20 years and Annual Regular Premium payment option of Rs. 50,000 with a Premium Multiple of 10.

Premium Allocation:

Investment Fund	Assumed Premium Allocation
Growth Maximiser Fund	30%
Growth Enabler Fund	20%
Short Term Fixed Income Fund	10%
Capital Guaranteed Fund	40%

The Total Fund Value is inclusive of guaranteed amount provided under Capital Guarantee Fund.

Notes: Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your life insurance company (Tata AIG Life Insurance Company Ltd.). If your Policy offers guaranteed returns, then these will be clearly marked as 'guaranteed' in the benefit illustration table. If your Policy offers variable returns, then the benefit illustrations will show two different rates of assumed future investment returns. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back as the value of your Policy is dependent on a number of factors, including future investment performance. The illustrated maturity values have been calculated using investment returns of 10% and 6% respectively. The rates used are approved by the Life Insurance Council.

Settlement Option

You have an option to receive your Maturity Benefit either in lumpsum or in the form of periodical payments over a certain period, termed as 'Settlement Period' and such period shall not exceed five years from the Maturity Date. The frequency of periodical payment shall be chosen by the Policyholders at the time of exercising this option. The value of such periodical payments will depend on the performance of the Funds selected for investment. You have the full freedom to access your Fund Value at any time in any manner you wish.

During this Period, no life cover or other insurance cover will be provided and the death benefit is the Fund Value at that time. In the unfortunate event of death, the total Fund Value will be returned to the Nominee.

Benefit on Death

Subject to the Juvenile Provisions, if the Insured dies while the Policy is in force and before the Maturity Date, we will pay to the Nominee:

- (a) the higher of (i) the Sum Assured net of all Deductible Partial Withdrawals, if any, from the Regular Premium Account, or (ii) the Regular Premium Fund Value of this Policy at the applicable Unit Price; and

- (b) the higher of (i) the approved Top-up Sum Assured(s) net of all Deductible Partial Withdrawals, if any, from the Top-up Account or (ii) Top-up Fund Value of this Policy at the applicable Unit Price.

For the purpose of determining the Death Benefit under this provision, the Deductible Partial Withdrawals mentioned above, shall mean the higher of the sum of all Partial Withdrawals paid (net of the Partial Withdrawal Charge) from the relevant Account(s), (i) during the 24 months immediately preceding insured's date of death, or (ii) after Insured attains 60 years of age.

In the case of juveniles, the amount of death benefit payable under the Basic Policy shall be determined after the Sum Assured and any applicable Top-up Sum Assured is adjusted in accordance with the schedule given below.

Age at the time of death	Percentage of Sum Assured/ Top-Up Sum Assured
0	20%
1	40%
2	60%
3	80%
From 4 years upwards	100%

The Death Benefit/Sum Assured of the relevant Supplementary Contracts of the Policy which are payable in the event of death of the Insured, shall be adjusted according to the same schedule as above.

Premium and Policy Charges[^]

Premium Allocation Charge

The Regular Premiums are payable for the entire term of 15 years or 20 years. The net Regular Premiums after deduction of premium allocation charges are invested, as per your choice. The charge deducted from the Regular Premium received as a percentage of the Regular Premium is as per the table below.

Policy Year	Charge as a % of Regular Premium
1	40%
2	20%
3+	3%

Mortality Charges

Insurance Cover in each month is the difference between relevant Sum Assured* less any Partial Withdrawal Sums made during 24 months immediately preceding the due date of the month anniversary or all the Partial Withdrawals made post attainment of age 60, whichever is higher, and the relevant Fund Value* of the Policy. Mortality charge is the amount of insurance cover for the month multiplied by the applicable Mortality Charges for the month, based on the age of the Life Assured. It is automatically deducted every month from your Regular Premium Account and Top-up Account, where the life cover is applicable. This charge may also be deducted from either of the Accounts depending upon the Fund sufficiency.

*Note: In case of Regular Premium Account, Relevant Sum the Assured is Sum Assured and Relevant Fund Value is the Regular Premium Fund Value.

In case of Top-up Premium, Relevant Sum Assured is Top-up Sum Assured and Relevant Fund Value is Top-up Fund Value.

Sample Age	Mortality Charges per 1000 lives
25	1.709
35	2.152
45	4.911
55	13.533

Policy Administration Charge

A monthly Administration Charge will be automatically deducted from your Regular Premium Account. This charge may be increased upto a maximum of five (5%) p.a. Currently, this Administration Charge is Rs. 50 per month.

Fund Management Charge (FMC)

A Fund Management Charge will be charged for each fund on each valuation date at 1/365 of the following annual rates and will be applied on the total values of the investment funds, as given below:

Fund	Charge per Annum
Growth Maximiser Fund	1.60%
Growth Enabler Fund	1.40%
Short Term Fixed Income Fund	0.90%
Capital Guarantee Fund	1.50%
Select Equity Fund	1.45%

All Fund Management Charges are subject to revision by the Company, but shall not exceed 1.75% per annum of the Fund value.

Surrender Charge

You are not allowed to surrender the policy during the first three policy years. After completion of three policy years, policy will be subject to the Surrender Charges, as shown below. The Surrender Charge is calculated as a percentage of the Fund Value withdrawn.

The Surrender charges as % of Regular Premium Account is as below.

Policy year	Charges from Regular Premium Fund Value
1	NA
2	NA
3	NA
4	30%
5	20%
6	10%
7+	Nil

Partial Withdrawal Charge

There are no Partial Withdrawal charges.

Charges for Payor Benefit (PB Charge)

The PB Charges are calculated as below and will be deducted by cancelling Units at the relevant Unit Price from Regular Premium Fund Value on each Policy Month Anniversary. If the Regular Premium Fund Value is insufficient, then the PB Charges will be deducted from the Top-up Fund Value.

PB Charge = PB Amount * PB Rate

PB Amount = Sum of all future Premiums to be waived.

Policy Term: 15 years

Insured Age/ Payor Age	1	6	8	15
18	1.009090	1.009090	1.072159	1.325593

Policy Term: 20 years

Insured Age/ Payor Age	1	6	8	15
18	0.867177	1.009090	1.072159	1.325593
30	1.039385	1.209481	1.285073	1.588836
40	1.873429	2.180016	2.316267	2.863782
50	6.648235	6.648235	6.648235	7.505234

The PB Charge is based on disability and mortality rates of the Payor. The rates for sample ages are as shown on the previous page.

Fund Switching Charge

The first 12 switches per policy year will be free of any charges. Subsequently, a charge of Rs. 100 will be levied on all switches. This Charge of Rs. 100 may be revised by the Company, but shall not exceed Rs. 250.

Premium Re-direction Charge

There is no Premium Re-direction Charge. Premium Re-direction facility helps you to allocate future premiums to a different fund or set of funds.

Top-up Premium Allocation Charge

A Top-up Premium Allocation Charge of 1.5% of the Top-up Premium will be deducted.

The Company has the right to alter all the above charges (except Mortality Charge and Premium Allocation Charges which are guaranteed throughout the term) by giving an advance notice of at least three months to the Policyholder, subject to the approval of IRDA and will have prospective effect.

^Service Tax is payable on life insurance premium as per applicable laws. Tata AIG Life Insurance Company Limited reserves the right to recover from the Policyholder, any levies and duties (including Service Tax), as imposed by the Government, either by premium adjustment or other forms, as deemed appropriate.

Exclusions

If the Insured, whether sane or insane, commits suicide within one year from the Issue Date or Commencement Date or Reinstatement Date, whichever is later, the Company's liability shall be limited to the Total Fund Value.

Payor Benefit - Exclusions

This Payor Benefit shall not cover any death or Total Permanent Disability caused directly or indirectly, wholly or partly, by any of the following occurrences:

- (i) assault or murder;
- (ii) riot and civil commotion, industrial action or terrorist activity;

- (iii) war, declared or undeclared, or revolution;
- (iv) service in the armed forces in time of declared or undeclared war or while under orders for war like operations, or restoration of public order;
- (v) self-destruction or attempted self-destruction or self-inflicted injuries, while sane or insane;
- (vi) entering, exiting, operating, servicing, or being transported by any aerial device or conveyance except when the Original Policyholder is a fare-paying passenger on a commercial passenger airline on a regular scheduled passenger trip over its established passenger route;
- (vii) any congenital defect which has manifested or was diagnosed before the Original Policyholder attains 17 years of age;
- (viii) in our opinion the Original Policyholder was suffering from Acquired Immuno-Deficiency Syndrome (AIDS) or infection by any Human Immuno-Deficiency Virus (HIV).

For the purpose of this Policy:

- 1) The definition of AIDS shall be that used by the World Health Organisation in 1987, or any subsequent revision by the World Health Organisation of that definition.
- 2) Infection shall be deemed to have occurred where blood or other relevant test(s) indicate in the opinion of the Company, either the presence of any Human Immunodeficiency Virus or Antibodies to such a Virus.

(ix) deliberate act(s) of the Policyholder, Nominee or Insured;

(x) violation or attempted violation of the law or resistance to arrest;

No benefit will be provided for death or Total Permanent Disability resulting from a physical or mental condition which existed before the Issue Date or Commencement Date of the Policy, which was not disclosed in the Application or health statement. For the purpose of this Payor Benefit, the clauses covering Incontestability, Suicide, Age and Sex, Exclusions and Medical Examination in the General Provisions of the Basic Policy shall apply to the Original Policyholder, as well as the Insured.

INSURANCE ACT, 1938, SECTION 41 (PROHIBITION OF REBATES):

1. No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take out or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the Policy, nor shall any person taking out or renewing or continuing a policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectus or tables of the insurer.

2. If any person fails to comply with sub-regulation (1) above, he shall be liable to payment of a fine, which may extend to Rupees Five Hundred.

INSURANCE ACT, 1938, SECTION 45:

No policy of life insurance effected before the commencement of this Act shall after the expiry of two years from the date of commencement of this Act, and no policy of life insurance effected after the coming into force of this Act, shall after the expiry of two years from the date on which it was effected, be called in question by an insurer on the ground that a statement made in the proposal for insurance or in any report of a medical officer, or referee, or friend of the Insured, or in any other document leading to the issue of the

Policy, was inaccurate or false, unless the insurer shows that such statement was on a material matter or suppressed facts which it was material to disclose and that it was fraudulently made by the Policyholder and that the Policyholder knew at the time of making, that the statement was false or that it suppressed facts, which it was material to disclose. Provided that nothing in this section shall prevent the insurer from calling for proof of age at anytime, if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the Policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.

Disclaimer

Unit Linked Life Insurance products are different from traditional insurance products and are subject to risk factors of fluctuations in investment returns and possibility of increase in charges.

Please know the associated risks and the applicable charges, from your insurance agent or the intermediary or policy document of the Company.

The performance of the managed portfolios and funds is not guaranteed and the Fund Value may increase or decrease in accordance with the future experience of the managed portfolios and funds. The Fund Value during the period of continuance of the Policy and at maturity may be more or less than the premiums invested depending on market performance. Past returns are not necessarily a guide to future performance.

The premium paid in Unit Linked Life Insurance Policies are subject to Investment Risks associated with the Capital Markets and the NAVs of the units may go up or down based on the performance of the funds and factors influencing the Capital Market and the insured is responsible for his/her decisions.

Buying a life insurance policy is a long-term commitment. An early termination of the Policy usually involves high costs and the Surrender Value payable may be less than the total premiums paid.

The brochure is not a contract of insurance. The precise terms and conditions of this plan are specified in the Policy contract.

Tata AIG Life Insurance Company Ltd. is only the name of the Insurance Company. Tata AIG Life InvestAssure Extra is only the name of the Unit Linked Life Insurance Contract, and does not in any way indicate the quality of the contract, future prospects or returns. The various funds, offered under this contract are the names of the funds and do not in any way indicate the quality of these funds, their future prospects and returns.

Wherever this brochure refers to taxation matters, Tata AIG Life does not take responsibility for any specific advice on taxation implications. You are advised to check with your personal tax advisor for advice relevant to your circumstances.

The indications about taxation matters presented in this brochure are based on our interpretation of current tax laws and these may change in the future.

The contract of insurance is between Tata AIG Life Insurance Company Ltd. and the insured. Participation of customers is purely voluntary.

This product is underwritten by Tata AIG Life Insurance Company Ltd. This brochure should be read along with the sales benefit illustration, which mentions the exclusions in this policy.

Premiums mentioned in the brochure are for a healthy person.
